

Position Announcement

- Position:** High Desert Conservation Corps - AmeriCorps Field Team Leader (FTL)
- Service Location:** Bend, OR; Prineville, OR; Redmond, OR as assigned. Project locations throughout Central Oregon.
- How to Apply:** Please submit your resume and cover letter to recruitment@heartoforegon.org
- Organization Summary:** Heart of Oregon Corps' mission is to inspire and empower positive change in the lives of young people through jobs, education, and stewardship. We aim to improve economic and social vitality while increasing pathways out of poverty. We are training tomorrow's workforce today.
- Heart of Oregon Corps' High Desert Conservation Corps (HDCC) program serves local young people ages 17-24 throughout Central Oregon and improves over 1,000 acres of public lands a year. The Field Team Leader (FTL) position will provide leadership to crews comprised of these local members. While the FTL is tasked with the daily leadership of a crew, a staff Crew Leader will be the official supervisory figure in charge of disciplinary action, case management, improvement plans and emergency response.
- Crews of local young people, a Field Team Leader, Conservation Team Leader, and a Staff Crew Leader serve mostly outdoors on natural resource conservation projects. Crews complete a wide range of conservation projects, such as fire fuels reduction, fencing (enclosure/exclosure), habitat restoration, invasive species management, and hiking/biking trail maintenance, among others. Project partners include the Deschutes and Ochoco US Forest Service, Prineville BLM District, and Bend Parks & Rec, among many others.
- Position Summary:** This position is a 47 week, 1700-hour, full-time, nonresidential service position that has a leadership, but not supervisory role on the crew. The FTL will gain hands-on experience in conservation projects and leadership skills. The FTL will be trained on how to successfully lead a crew of young adults under the supervision of a HOC Crew Leader. Over time, the FTL will be tasked with leading a crew without the direct presence of a Crew Leader. This will be one (1) day per week on average after completing their training period. During this time, the FLT will take the skills gained from training and shadowing their Crew Leader to successfully complete a project day. Crew Leaders or applicable staff will debrief with and assess the day with the FTL. The goal for this term of service is to produce competent crew leaders who can further conservation efforts in Central Oregon and beyond.
- The position serves outside on public lands about 85% of the time. The position is ideal for people who want to gain leadership skills and experience within a conservation crew setting. While not strictly required, previous experience with conservation corps, natural resources, outdoor leadership, and or environmental education backgrounds/degrees is preferred. A strong desire to lead and take on responsibility is essential for this role.
